

## FOR IMMEDIATE RELEASE

### A SUMMER OF IMPROVEMENTS

West Michigan, MI (August 1, 2008) ó Wolverine Building Inc. has been very active wrapping up several upgrade projects in West Michigan this summer.

#### *Area Wide OB/GYN Build-Out*

Recently completing the remodel of a 6,370 square feet suite at the Spectrum South Pavilion, Wolverine welcomes the new location for Area Wide OB/GYN Health Services. The 10 week remodel was a selective demolition project, where many existing features were reused while incorporating them with new finishes. Area Wide OB/GYN has moved in and is currently serving West Michigan women.

#### *Packaging Corporation of America*

Wolverine completed numerous remodeling projects at the Packing Corporation of America manufacturing plant in Grandville. Projects included the remodel of all existing bathrooms; replacement of plumbing fixtures, installation of new stainless steel partitions, new forced air hand dryers, new mirrors & cabinetry, new ceiling grid & tile and fresh paint throughout the existing bathrooms.

#### *Advanced Packaging*

Advanced Packaging's growth and success called for an expansion to their state-of-the-art facility originally built by Wolverine a year ago. Wolverine built an additional 3,400 square feet of office space, and made other improvements to the building including an eyebrow canopy, an exterior dust collection unit, and a new entry canopy into the design area of the facility. Advance Packaging continues to upgrade their facility to make it more efficient and user friendly.

Wolverine Building Inc. is proud to be a continuous aid to West Michigan's ongoing business expansions, updates, and improvements.

Wolverine Building, Inc. is a full-service general contractor with more than 65 years of experience providing exceptional construction services to industrial and commercial clients throughout West and Central Michigan.
