

FOR IMMEDIATE RELEASE

Learning to Fly

Grand Rapids, MI (August 13, 2008) . Providing construction management services to the Kent Intermediate School District, Wolverine Building has recently completed the demolition and renovation of the KISD Aviation Hangar located near the Ford International Airport.

The design/build project transformed the existing hangar into a 12,000 square foot building with a mezzanine, a barrier free lift, and hangar space. Wolverine constructed two levels of new classrooms for the specialty student programs of the Kent Career Technical Center. The renovation included an aviation mechanic learning program center, as well as classrooms for the newly installed NASA program.

Wolverine Building, Inc. is a full-service general contractor with more than 65 years of experience providing exceptional construction services to industrial and commercial clients throughout West and Central Michigan.
