

FOR IMMEDIATE RELEASE

A New Home for the Kentwood Library

Kentwood, MI – (November 26, 2008) Wolverine Building Inc. & Post Associate Architects have been selected by the City of Kentwood to design and construct the new Kentwood District Library.

At approximately 43,000 square feet, the new facility will act as the Kentwood District Library's new flagship location. It will include the latest innovations in Library Sciences, as well as space for community gatherings and functions. Land Development Solutions is assisting the team in selecting the most appropriate location on the Kentwood Municipal Campus on Breton Avenue to place the building; while Molinaro Architects of Evanston, IL guides the KDL through programming. The Wolverine team plans to break ground on the project in the Spring of 2009. The \$ 8 Million project better serves Kentwood residents by providing a facility that will include larger reading selections, upgraded technology, and a more serene learning environment.

Wolverine Building, Inc. is a full-service general contractor with more than 65 years of experience providing exceptional construction services to industrial and commercial clients throughout West and Central Michigan.
