

## FOR IMMEDIATE RELEASE

### **Todd Wenzel Upgrades Both Locations**

July 12, 2010 (Grand Rapids, MI; Hudsonville, MI) – Construction has begun on the remodeling of both Todd Wenzel Automotive locations, Todd Wenzel Buick GMC in Grand Rapids and Todd Wenzel Chevrolet in Hudsonville. The renovations are part of a nation-wide push by General Motors to create brand identity and attract more customers to dealerships.

Wolverine Building Group is proud to team up with architect Design + on the remodel projects. Plans for the 11,000 square foot Grand Rapids location include completely stripping out the interior to rebuild the space. The 6,500 square foot Hudsonville location will receive an extensive remodel as well as a 2,500 square foot addition to the service department. Both locations will be given upgrades to the show room, offices, and service center including new paint, flooring, ceilings, wall covering, and lighting. Additionally, Wolverine will construct new exterior elements to create more inviting and modern entries such as new siding and tall framed entrance canopies for each dealership.

According to Wolverine Project Manager Jim Ziegler, “It is clear that Todd Wenzel wants to offer the best car shopping experience for his customers. Bringing the facilities in line with current GM standards will provide a fresh look that will encourage car shoppers to feel more confident about their next purchase.”

The Todd Wenzel Automotive projects are set to complete by November 1<sup>st</sup>, 2010.
