

FOR IMMEDIATE RELEASE

Sundance Chevrolet Begins Showroom Renovation

June 24, 2011 (Grand Ledge, MI) – Demolition work has begun on the remodeling of the locally renowned Sundance Chevrolet in Grand Ledge, MI. The renovation is part of a nation-wide push by General Motors to create brand identity and attract more customers to their dealerships.

Wolverine Building Group is proud to team up with architect Design Plus on the remodel project. The \$1.0 million project includes the extensive renovation of the existing showroom and a 4,300 square foot addition to the building. The fresh space will house the new car showroom, service write-up area, new car delivery area, and customer waiting room. Additionally, Wolverine will construct a tall framed entrance canopy to create a more inviting, modern entry that meets GM's image update guidelines.

According to Wolverine Project Manager Jim Ziegler, "It is clear that Sundance Chevrolet wants to offer the best car shopping experience for their customers. Bringing the facilities in line with current GM standards will provide a fresh look that will encourage car shoppers to feel more confident about their next purchase."

The renovation is set to complete by this September 2011.
